- Operational Considerations

The Call for Help

The Rescue

Shoot the Rescuer

Thanks for not thinning around me before the fire hit!!!!

Montana Communities & Wildfire Conference

- Incident Commander Considerations
- Costs Associated with Urban/Interface Fires
- Examples from the Northern Rockies including the Camp 32 Fire

Incident Commander Considerations

- Agency Administrator Expectations
 - Keep the fire to the smallest acreage possible, within the constraints of firefighter and public safety
 - Pay particular attention to keeping fire costs to a minimum necessary to meet the objectives outlined in the WFSA.
- Wildland Fire Situation Analysis (WFSA)
 - Direct/Indirect Combo
- Interagency Cooperation
- Establishing the Working relationships
- Community Planning efforts prior to the incident, i.e., population protection planning
- Costs

Cost

- Wedge Canyon – Urban Interface, 53,000 acres, \$34,000,000
- Mineral Primm – Plum Cr/Back Country, 22,000 acres, \$14,000,000
